

COVID-19 Prevention Program (CPP) for Archdiocese of San Francisco St. Charles School

This CPP is designed to control exposures to the SARS-CoV-2 virus that may occur in our workplace.

Date: August 10, 2021

Authority and Responsibility

The pastor and principal have overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all managers and supervisors are responsible for implementing and maintaining the CPP in their assigned work areas and for ensuring employees receive answers to questions about the program in a language they understand.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment.

Identification and Evaluation of COVID-19 Hazards

We will implement the following in our workplace:

- Conduct workplace-specific evaluations using the **Risk Assessment** form previously distributed and Attached as **Appendix A**.
- Evaluate employees' potential workplace exposures to all persons at, or who may enter, our workplace.
- Develop COVID-19 policies and procedures to respond effectively and immediately to individuals at the workplace who are a COVID-19 case to prevent or reduce the risk of transmission in the workplace
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic (weekly at minimum) inspections using the **Appendix B: COVID-19 Inspections form** as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures referencing section 3205(c)(2) for specific details.

Employee participation

Employees are encouraged to participate in the identification and evaluation of COVID-19 hazards by speaking with their supervisor or if not comfortable doing so, with their pastor, principal, Director of Human Resources or Superintendent of Schools.

Employee screening

Employees and students will self-screen according to CDPH guidelines. Keep your location equipped to respond to those with COVID-19 symptoms which includes an isolated room where symptomatic people can wait until their ride comes to pick them up.

Correction of COVID-19 Hazards

Unsafe or unhealthy work conditions, practices or procedures will be documented on the **Appendix B: COVID-19 Inspections** form and corrected in a timely manner.

Control of COVID-19 Hazards

Face Coverings

Employees will follow State Guidelines as outlined in the **COVID-19 Plan: Appendix C**. All locations must have N-95 masks on hand and made available for unvaccinated staff and to those who request it. Click here for a [list of N-95 vendors](#) or go to www.dir.ca.gov/dosh/wildfire/ListofN95Vendors.pdf. A face mask or covering will be provided to any employee that requests one, regardless of vaccination status.

Cleaning and disinfecting

We implement the following cleaning and disinfection measures for frequently touched surfaces: as outlined in the **COVID-19 plan: Section 3205 (c) (7)(B)(2)**

If there is a case of COVID-19 in the workplace, we will follow the cleaning requirements as outlined in the **Notice of Disinfection and Safety Plan: Appendix D**.

Shared tools, equipment and personal protective equipment (PPE)

PPE must not be shared, e.g., gloves, goggles and face shields.

Items that employees come in regular physical contact with, such as phones, headsets, desks, keyboards, writing materials, instruments and tools must also not be shared, to the extent feasible. Where there must be sharing, the items will be disinfected between uses by outlined in **COVID-19 Plan: Appendix C**.

Hand sanitizing

In order to implement effective hand sanitizing procedures, we follow the procedure outlined in **COVID-19 Plan: Appendix C**.

Personal protective equipment (PPE) used to control employees' exposure to COVID-19

We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed outlined in the **COVID-19 Plan: Appendix C**.

Testing of Symptomatic Employees

We make COVID-19 testing available at no cost to employees with COVID-19 symptoms who are not fully vaccinated, or those who have had a close contact, during employees paid time. Exclusions are

- Employees who were fully vaccinated before the close contact and do not have symptoms.
- COVID-19 cases who were allowed to return to work per our return-to-work criteria and have remained free of symptoms for 90 days after the initial onset of symptoms, or for cases who never developed symptoms, for 90 days after the first positive test.
- The information on benefits described in Training and Instruction, and Exclusion COVID-19 Cases, below, will be provided to employees.
- Written notice within 1 day of the administrator's knowledge of a COVID-19 positive case that people at the worksite may have been exposed to COVID-19. This notice will be provided to all employees (and their authorized representative), independent contractors and other employers at the worksite during the high-risk exposure period. These notifications must meet the requirements of T8CCR section 3205(c)(3)(B) and Labor Code section 6409.6(a)(4); (a)(2); and (c), and in a form readily understandable by employees and can be anticipated to be received by the employee.

Investigating and Responding to COVID-19 Cases

This will be accomplished by using **COVID-19 POSITIVE (OR TREATED AS POSITIVE) EMPLOYEES/CLERGY/VOLUNTEERS AND PARISHIONERS: Appendix E**.

All investigations will be done by the Director of Human Resources. Please call Vicky Salgado at 415-614-5541 if you become aware of any COVID-19 exposure, positive test, or symptoms of COVID-19. For schools please use the reporting form to report COVID-19 Positive Cases: https://docs.google.com/forms/d/1BT_Rt5QRpmaknNj6aUnSJnPXCGmaTWsigarZ5oToppo/edit

System for Communicating

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- That employees should report COVID-19 symptoms and possible hazards to their supervisor, pastor or principal.
- That employees can report symptoms and hazards without fear of reprisal.
- In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test. If this were to happen, we will communicate with employees with close contacts or in the same workplace with a

COVID-19 positive employee or visitor in writing using the attached notices: **Appendices F and G, respectively**. Testing is in response to CCR Title 8 section 3205.1, Multiple COVID-19 Infections and COVID-19 Outbreaks, as well as section 3205.2, Major COVID-19 Outbreaks. It is recommended that the plan be developed in advance for large or high-risk workplaces.

Training and Instruction

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws. We will provide this information if there is an exposure in the workplace.
- The fact that:
 - COVID-19 is an infectious disease that can be spread through the air.
 - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
 - An infectious person may have no symptoms.
- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- Since COVID-19 is an airborne disease, N95s and more protective respirators protect the users from airborne disease, while face coverings primarily protect people around the user.
- The conditions where face coverings must be worn at the workplace.
- That face coverings are additionally recommended outdoors for people who are not fully vaccinated if six feet of distance cannot be maintained.
- Employees can request face coverings and can wear them at work regardless of vaccination status and without fear of retaliation.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.
- **We will use the CDC resources attached as Appendix H and will document the training using Appendix I**

Exclusion of COVID-19 Cases

Where we have a COVID-19 case in our workplace, we will limit transmission by: Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work requirements are met with the following exceptions:

- Employees who were fully vaccinated before the close contact and who do not develop COVID-19 symptoms.
 - COVID-19 cases who returned to work per our return-to-work criteria and have remained free of COVID-19 symptoms, for 90 days after the initial onset of COVID-19 symptoms, or for COVID-19 cases who never developed COVID-19 symptoms, for 90 days after the first positive test.
- We will continue and maintain an employee's earnings, seniority, and all other employee rights and benefits whenever it demonstrated that the COVID-19 exposure is work related.

Wages will be continued if the employee has sick leave, vacation time or other paid time off or if the person has filed a worker's compensation claim. If the latter, the amount of the salary continuation is determined by the workers compensation system. If the employee has a hardship, he/she can contact his/her supervisor.

Providing employees at the time of exclusion with information on available benefits. Certain employees may be eligible for a reasonable accommodation in connection with this policy. Employees should speak with their Supervisor about requesting an accommodation

Reporting, Recordkeeping, and Access

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or in connection with any employment.
- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in accordance with CCR Title 8 section 3203(b).
- Make our written COVID-19 Prevention Program available at the workplace to employees, and to representatives of Cal/OSHA immediately upon request.
- Use a log maintained by the Human Resources Department to keep a record of and track all COVID-19 cases. The information will be made available as required by law, with personal identifying information removed.

Return-to-Work Criteria

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
 - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
- COVID-19 symptoms have improved.
 - At least 10 days have passed since COVID-19 symptoms first appeared.
- COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
- A negative COVID-19 test will not be required for an employee to return to work.
- Persons who had a close contact may return to work as follows:
 - Close contact but never developed symptoms: when 10 days have passed since the last known close contact.
 - Close contact with symptoms: when the “cases with symptoms” criteria (above) have been met, unless the following are true:
 - The person tested negative for COVID-19 using a polymerase chain reaction (PCR) COVID-19 test with specimen taken after the onset of symptoms; and
 - At least 10 days have passed since the last known close contact, and
 - The person has been symptom-free for at least 24 hours, without using fever-reducing medications.
- If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.

Pamela Lyons, Superintendent of Schools

Appendix A: Risk Assessment

COVID-19 RISK ASSESSMENT

For Employees:

Does the workplace have personal protective equipment available? Including:

- Y N-95 masks/shields
- Y gloves
- Y anti-bacterial soap
- Y hand sanitizer.

Is there someone trained to take temperature of employees if exposure occurs? Yes. School office staff and administration

- Y Is there a private place for this?
- Y Does the workplace have sufficient no-contact thermometers?

Does the workplace have disinfecting supplies that comply with the Cal-OSHA requirements? Yes

- Y Is your workplace and janitorial service following the EPA guidelines?
<https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>

Are you cleaning often enough?

- Y Daily for all surfaces and in all areas?
- Y Are classrooms with multiple cohorts being sanitized between classes
- Y Does your workplace have enough equipment so that employees do not have to share:
 - Y Phones
 - Y Computers
 - Y Work area
 - Y Office Supplies
 - Y Printers/Copiers

Are your employees implementing individual controls to stop the spread of COVID-19?

- Y Take their temperatures at home
- Y Stay home if sick
- Y Stay home if you have had close contact with someone with COVID-19

Are your employees aware of face covering policies?

- Y When masks/face coverings are required
- Y How to wear it properly to maximize effectiveness
- Y They can get a new one if theirs becomes damaged, worn or dirty.

For Visitors (if applicable in your county)

- Y Does the reception area have safe distancing protocols?
- Y Does your workplace have cues to distance when needed? (e.g. tape markers or dividers)
- Y Does your workplace have a barrier between the employee and visitor that is either a physical barrier (window system or similar) or a cue (stay behind line)?

Does the workplace have the ability to provide services contact-free?

- Y Can you limit the amount of cash that is exchanged?
- Y Can you limit interaction between employee and visitors ?

Do you have protocols for visitors?

- Y Is there signage that informs visitors of needed precautions (e.g. face covering)?
- Y Require face covering
- Y Are they required to self-certify or show proof of negative COVID test?

Appendix B: COVID-19 Inspections

Date: **August 20, 2021**

Name of person conducting the inspection: **Megan Armando**

Work location evaluated: **St. Charles School**

| Exposure Controls | Status | Person Assigned to Correct | Date Corrected |
|--|--------|----------------------------|----------------|
| Engineering (bi-monthly) | | | |
| Ventilation (amount of fresh air and filtration maximized) | | | |
| Additional room air filtration | | | |
| Administrative (weekly) | | | |
| Physical distancing (if appropriate) | | | |
| Surface cleaning and disinfection (frequently enough and adequate supplies) | | | |
| Hand washing facilities (adequate numbers and supplies) | | | |
| Disinfecting and hand sanitizing solutions being used according to manufacturer instructions | | | |
| PPE (not shared, available and being worn) | | | |
| Face coverings (cleaned sufficiently often) | | | |
| Gloves | | | |
| Face shields/goggles | | | |
| Respiratory protection (N-95 masks with adequate inventory available) | | | |

Appendix C: Covid-19 Plan

COVID-19 Worksite Plan

Name of Worksite: St. Charles School

Address of Worksite: 850 Tamarack Avenue, San Carlos, CA 94070

Name of Site Supervisor: Megan Armando

Date: August 20, 2021

Contact Information for the County Public Health Department:

For Employees:

1. Employees will self-screen at home before coming to work:
 - A. If they have respiratory symptoms, they will stay home and inform their supervisor.
 - B. If they have any of the following symptoms, they will stay home and inform their supervisor:
 - i. Cough
 - ii. Shortness of breath or difficulty breathing
 - iii. Fever (of 100.4 degrees and above)
 - iv. Chills
 - v. Muscle pain
 - vi. Sore throat
 - vii. New loss of taste or smell

Refer to this link for more information: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

- C. If they feel at all sick or have any of the above symptoms, they will stay home and inform their supervisor.
 - D. They will stay home if they have been exposed to someone with COVID-19 and inform their supervisor.
 - E. If the employee gets a COVID-19 positive test, he/she will immediately inform the site supervisor and not return to work until cleared by the doctor.
 - F. They will wash their hands frequently using the CDC protocol found at this link: <https://www.cdc.gov/handwashing/index.html>
2. Safe Distancing will be practiced and Face Masks must be worn:
 - A. Those with private offices will work in them. When leaving for any reason, they will wear a face covering. Before returning to their office, the employee will wash his/her hands or use hand sanitizer.
 - B. Any time an employee is not in his/her private office, he/she will wear a face covering.

- C. When walking through common workspaces such as the copy room, restroom, all employees and visitors will wear masks.
3. Employees will wear protective equipment when meeting the public
 - A. Visitors are required to wear face coverings
 - B. Employees are required to wear face coverings
 4. When employees share office equipment such as copiers, scanners and postage meter, the equipment will be disinfected after each use.
 5. Employees will use EPA approved disinfectants to clean their work areas after each shift. Employees will leave enough time at the end of their shifts to complete the cleaning process. All such time is considered work time. When using shared equipment such as copiers, disinfect after each use. This link provides more guidance: <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>

For Vendors/Visitors

1. Vendors/Visitors must observe all locations protocols for vaccinations and/or testing as well as current face cover/masking requirements
2. Place signs instructing vendors/visitors to observe any visual cues to stay 6 feet apart and 6 feet from employees as well as other requirements;
 - a. Must wear a facemask
 - b. Must not perform work or visit if they have any symptoms (as outlined above)
3. Place hand sanitizer at the entrances to the offices and require vendors/visitors to sanitize their hands before entering.

For Cleaning Personnel

1. Clean the work site thoroughly every day using approved disinfectants. Refer to the link above for EPA approved disinfectants.
2. Pay special attention to common areas (used by more than one person), reception areas, conference rooms, stairwells and doorknobs.
3. Ensure that there are disposable paper towels in the bathrooms and kitchenettes and that there is anti-bacterial hand soap available near every sink.

For the site supervisor:

1. He or she will train employees in the above protocols.
2. Train employees in how to prevent COVID-19 from spreading and which underlying health conditions may make individuals more susceptible to contracting the virus.
3. He or she will complete a weekly evaluation to ensure the protocols are being implemented. Concerns identified should be pursued to identify areas of improvement and a plan to implement these.
4. He or she will ensure that there are adequate supplies including:
 - a. Face coverings
 - b. Gloves
 - c. Disinfectant
 - d. Hand sanitizer

- e. Hand soap
5. He/she will ensure that the disinfection protocols discussed in this plan are implemented.
 6. He/she will place hand sanitizer throughout the workplace to encourage good hand sanitation.
 7. If an employee tests positive for COVID-19, the site supervisor will investigate and determine if any workplace factors could have contributed to the risk of infection. If so, he/she will update this plan. Please notify HR of any incidences of positive COVID-19 cases.
 8. Ensure that safe distancing protocols are in place:
 - a. Close or limit access to common areas. If used, make sure they are cleaned and disinfected at the end of the use.
 - b. Ensure ventilation of the work areas is adequate.
 9. Ensure that employees do not congregate in kitchenettes, bathrooms or common areas.
 10. Establish no contact protocols for working with visitors.
 11. Remind employees, volunteers, visitors and others that following this protocol is mandatory.
 12. Post the required certification at the workplace. See this link for more information:
<https://covid19.ca.gov/pdf/checklist-office-workspaces.pdf>

Appendix D: Disinfection and Safety Plan

Archdiocese of San Francisco Notice of Disinfection and Safety Plan

California Labor Code 6409.6

In response to the COVID-19 pandemic the Archdiocese of San Francisco adopted and implemented a disinfection and safety plan per the guidelines of the federal Centers for Disease Control. Now, in response to a potential COVID-19 exposure, we are providing the following information on the Archdiocese of San Francisco's current disinfection and safety plan and new measures we are implementing.

1. Routine Cleaning: Employees will use EPA approved disinfectants to clean their work areas after each shift. Employees will leave enough time at the end of their shifts to complete the cleaning process. All such time is considered work time. When using shared equipment such as copiers, disinfect after each use. This link provides more guidance: <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>

2. When an employee or visitor gets sick at work, Cleaning and disinfecting requirements include:

- Close any areas used by the person for a prolonged period of time (i.e. 15 minutes).
- Wait 24 hours before cleaning and disinfecting to minimize potential for other employees being exposed to respiratory droplets.
- During the waiting period, open doors and windows.
- Use protocols that meet the EPA criteria see this <https://www.cdc.gov/coronavirus/2019-ncov/community/clean-disinfect/index.html> and this <https://www.epa.gov/newsreleases/epa-cdc-release-guidance-cleaning-and-disinfecting-spaces-where-americans-live-work> :

The person cleaning must wear gloves, facemask and gown.

3. If a person states that he/she was in your building and later tests positive or has symptoms, take the following steps:

- If it has been fewer than 7 days since the sick person used the facility, clean and disinfect all areas used by the sick person.
- If it has been 7 days or more since the sick employee used the facilities, additional cleaning is not necessary.

4. In other situations where the person tests positive but does not have any symptoms or has only a close contact with someone who is positive for COVID-19: Regular cleaning protocols can resume unless the person develops symptoms or becomes COVID-19 positive. In that case, follow applicable guidance above.

Appendix E: COVID-19 Guidelines and Resources

COVID-19 Guidelines & Resources

Post Arrival Symptomatic Employees:

When an employee experiences [symptoms](#) of illness during the work day they should contact the location administrator right away and go to the predetermined isolation area. The administrator must put on the proper PPE before entering to check on the employee and determine next steps. The employee's symptoms may be recorded and retained in a secure location. The location administrator may assist the employee in calling for a ride home if unable to drive themselves. The employee should stay in the isolation area until their transportation arrives. Once the employee has left the isolation area it should be cleaned and disinfected immediately by maintenance personnel that are trained in proper chemical use and cleaning processes. PPE should be worn by employees performing this work.

The CDC has determined symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Fever or chills (temperature of 100.4 degrees or above)
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Look for emergency warning signs for COVID-19. If someone is showing any of these signs, seek emergency medical care immediately:

- Trouble breathing
- Persistent pain or pressure in the chest

- New confusion
- Inability to wake or stay awake
- Bluish lips or face

If the symptoms are severe and you assess the employee should go directly to a medical facility, call 911.

****Under no circumstances should another employee or administrator transport an employee in their personal or location vehicle for medical attention. This policy is to prevent exposure to possible infection, ensure care and mitigate potential liability.****

Reporting Responsibilities:

Employees should be advised that if they have self-screened or are experiencing symptoms of COVID-19 and feel they should stay home for recuperation, self-quarantine and/or testing, they must call in to work using the same protocol that is required any other time they call in sick. This policy also applies during a distance learning or a hybrid instructional model. Furthermore, if an employee is out sick they should stay off school zoom and any other instructional platforms, not engage in any work activities including email, except to notify their supervisor of being out if that is the preferred method of notification.

If an employee is confirmed positive for coronavirus we should notify anyone determined to be a “close contact” using ADSF communication protocols, maintaining privacy and standards of confidentiality. We must report the confirmed case to our local health department and if hospitalization or death occurs, to the Occupational Safety & Health Administration ([OSHA](#)).

Locations should not contact the health department for a suspected case of COVID-19 infection, report an employee who has self-quarantined or been exposed to someone who is positive for Coronavirus.

Return To Work:

- If an employee has stayed home due to symptoms or has self-quarantined for a period of time, here are some of the guidelines health care professionals use to determine if an employee is able to return to work:
 - At least 1 full day (24 hours) have passed since recovery defined as resolution of fever without the use of fever-reducing medications.
 - Improvement in respiratory symptoms (e.g., cough, shortness of breath); and
 - At least 10 days have passed since symptoms first appeared.

Leave of Absence:

When an employee requests a medical or discretionary leave of absence, they must submit an [application](#) to the location administrator. If no notice was given before the employee went out, the location administrator must report it to the ADSF Benefits Administrator and submit an [application](#) form on the employee's behalf. The leave of absence paperwork will be sent to the employee and included will be a document for the employee's health care provider to complete for use in applying for [State Disability Insurance \(SDI\)](#). Discretionary Leave is unpaid time off and must be authorized by the location administrator. The leave should not extend beyond 12 weeks and the employee may use accrued vacation time towards this time off request. The Administrator's decision is based on several business factors and the employee should be advised that completing an application request for time off is not guaranteed approval.

CA State Disability Insurance (SDI):

[Disability Insurance \(DI\)](#) provides short-term benefits (\$) to eligible workers who have a full or partial loss of wages due to a non-work-related illness, injury, or pregnancy. Application for this benefit is through the [Employment Development Department](#).

CA-Paid Family Leave (PFL):

[Paid Family Leave \(PFL\)](#) This law gives temporary disability insurance benefits (\$) to those who take time off of work to care for a seriously ill child, spouse, parent, or registered domestic partner, or to bond with a new child. It is administered by the [State Disability Insurance \(SDI\)](#) program. It provides up to 6 weeks of [Paid Family Leave](#) payments to eligible workers who take time off to care for family members. For details of [Paid Family Leave](#), you can read more on the [Employment Development Department](#) website.

Family and Medical Leave (FMLA):

The [Family and Medical Leave Act \(FMLA\)](#) provides [qualified employees](#) with up to 12 weeks of unpaid, job-protected leave per year. It also requires that their group health benefits be maintained during the leave. If an employee is unable to work because they are caring for an ill or quarantined family member and are able to provide a written certification by a state or local health officer that they are infected with, or suspected of being infected with COVID-19, they may be eligible for [FMLA](#). An application for the time off is required.

CA-Family Rights Act (CFRA):

The [California Family Rights Act](#) authorizes eligible employees to take up a total of 12 weeks of paid or unpaid job-protected leave during a 12-month period. While on leave, employees keep the same employer-paid health benefits they had while working. Eligible employees can take the leave for one or more of the following reasons:

- The birth of a child or adoption or foster care placement of a child.

- To care for an immediate family member (spouse, child or parent) with a serious health condition.
- When the employee is unable to work because of a serious health condition (SHC).
- A serious health condition is an illness, injury, impairment, or physical or mental condition that causes or requires:
 - a) Any period of incapacity or treatment in connection with, or after inpatient care
 - b) Any period of incapacity requiring absence from work, school, or other regular daily activities, of more than 3 consecutive calendar days
 - c) Ongoing treatment by or under the supervision of a health care provider for a chronic or long-term health condition that is incurable
 - d) Restorative dental or plastic surgery after an accident or injury

The Archdiocese of San Francisco and its employees are not eligible to apply for benefits under the CARES Act as our organization is over 500 employees. The ADSF Human Resources Office and Benefits Department are available to answer questions and assist you in navigating benefits that are available to you and your employees.

ADSF Human Resources Office (415) 614-5540

Important FAQ's

Part of our human reality is the fact that we cannot ever live risk-free. While no plan can completely eliminate the risk of infection from COVID-19 at home or school, each site will use a mitigation plan that outlines the provisions taken to mitigate the risk of infection from COVID-19. All school locations have developed mitigation plans that comply with State, County and CDC guidelines for a safe reopening. These plans were developed with careful and thoughtful design and planning, and can minimize the risk of exposure.

The Archdiocese of San Francisco and Department of Catholic Schools do not currently require the COVID-19 vaccine. Although we recommend all eligible persons get vaccinated, every person will be treated equally, fairly and justly regardless of vaccination status. Incidents of harassment, discrimination or bullying will not be tolerated by anyone.

1) Will I be required to get a COVID-19 vaccine if I have not already?

If you are fully vaccinated you can complete a vaccine certification form and submit it with proof of vaccine to your Administrator or HR Director (high schools only). If you are not fully vaccinated you will be treated as unvaccinated and required to submit proof of a negative test each week and to your Administrator or HR Director (high schools only).

2) If I have to test each week who will cover the cost of the test? The location is responsible for the cost of the COVID-19 test only if you are symptomatic or if there is an outbreak at your location. The location will provide paid time off for testing of unvaccinated employees for up to 4 hours. Regular testing is the financial responsibility of the employee.

3) What if I am immune-compromised and cannot have the vaccine (even if I want to)? If you would like to apply for a medical exemption you must submit a completed [Request for Reasonable Accommodation Form](#). This will not give you “work from home” privileges, however, you will not be required to vaccinate for period of accommodation

4) How safe is my medical information at my location?

All locations have a medical file for each employee which stores any medical information received. It might contain TB test results, medications your take or allergies you have which are used in case

of emergency. These files will also house your vaccination certification form, proof of vaccinations and/or COVID-19 test results and will be kept in locked storage. Only the school Administrator or HR Director (high schools only) will have access to these files.

5) What are the considerations/accommodations for employees who don't feel comfortable returning to work due to COVID-19 health concerns?

All school locations are offering in-person instructions for the 2021-2022 school year. Employees seeking a discretionary unpaid leave of absence must complete a [Leave of Absence Form](#). This leave is for up to 90 days only, must be approved by your supervisor and may be rescinded at any time. The ADSF Benefits Administrator is available to answer questions about this process.

6) What happens if someone, either a student or adult, tests positive for COVID-19?

If a teacher, student, parent, or other school community member tests positive for COVID-19, it is the responsibility of the informed adult to communicate such occurrence to the school Principal, or designee. The Principal will then notify the County Health Department, the Associate Superintendent supporting the school, and the class and/or school community affected by sending out a formal notification while abiding by all privacy laws (FERPA/The Buckley Amendment) to protect the privacy of those affected. The school Principal, or designee, will work with the Health Department official to determine the next steps for the class and/or school community affected.

7) What is the threshold for the number of sick students or staff members before a school closes?

Schools will work with their county health office and follow the CDPH criteria for determining a school closure. A school would close based on the number of cases, the percentage of teacher/students/staff that are positive for COVID 19, and in consultation with the local health officer. Local health officer will determine if school closure is warranted.

8) Will teachers and staff test regularly for COVID-19?

Teachers, staff and students who are fully vaccinated do not need to test unless they are experiencing symptoms of COVID-19. If they are unvaccinated, have been exposed or in close contact to a person who is positive, they should quarantine and get tested in 5 days. If not fully vaccinated and experiencing symptoms they should notify their primary care physician and get tested.

9) What happens if I go to school and get infected with COVID-19? Do I lose sick days due to the quarantine requirements?

The ADSF Human Resources and Benefits Department are available to answer questions and assist employees in navigating benefits that are available to them.

10) How frequently will the campus get cleaned and is it the teacher's responsibility to help sanitize the classrooms?

Coronaviruses on surfaces and objects naturally die within hours to days. Normal routine cleaning with soap and water removes germs and dirt from surfaces. It lowers the risk of spread of COVID-19. School facilities management teams, wearing the proper PPE and using proper chemicals will clean the classrooms and communal areas of campus each day that will follow the [CDC/EPA standards](#) for cleaning and sanitizing the campus.

In addition to the regularly scheduled cleaning, teachers can have students wipe down their own desk and chair before leaving class. The teacher (gloved) can wipe off door handles, cabinet and drawer handles and their own desk.

11) Is anything being done to increase fresh air transference in the classrooms?

Schools and their facilities teams have examined ways to improve air circulation in the classrooms. This includes propping doors and windows open as well as upgraded air filters. The Facilities Director at ADSF Real Properties has also worked with locations to offer viable solutions.

RE: Archdiocese of San Francisco Notice of a Potential Exposure To COVID-19: California Labor Code 6409.6

Dear [name of employee]

On [applicable date], the Archdiocese of San Francisco received a notice that you were potentially exposed to COVID-19, at [name and address of the workplace]

Within the infectious period of time, currently defined by the State Department of Public Health as the 48 hours (2 days) before the individual developed COVID-19 symptoms. If the COVID-19 positive employee is asymptomatic, the infectious period begins 48 hours before the COVID-19 test occurred. You were on the Archdiocese of San Francisco premises at the same worksite as an individual who has one of the following: [choose applicable bullet, delete others]

- A laboratory confirmed case of COVID-19,
- A positive COVID-19 diagnosis from a licensed health care provider,
- Is subject to a COVID-19 related isolation order provided by a public health official, or
- Who has died due to COVID-19 within the infectious period of time.

We have determined you are someone whom he or she had “close contact” with, which is defined as a person who was within 6 feet of the COVID-19 positive employee for a cumulative period of 15 minutes during a 24 hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated. The determination of a *close contact* is made regardless of whether the individuals were wearing a face covering or other personal protective equipment. Based on the information available to the Archdiocese of San Francisco, your last “close contact” with this individual was on _____[date].

Given your potential exposure to COVID-19, the Archdiocese of San Francisco requests that you quarantine at home for 14 days after [date of exposure] before returning to work. Further, it is recommended that you contact your health care provider and local public health department for guidance and information about possible actions you should take based on your individual circumstances.

COVID-19 related benefits the Archdiocese of San Francisco offers that you may be eligible for include:

- Archdiocese of San Francisco paid sick leave
- Paid vacation
- Workers' Compensation
- Medical Disability leave
- State disability
- California COVID-19 Supplemental Paid Sick Leave (until September 30,2021)

Certain employees may be eligible for a reasonable accommodation in connection with this policy. Employees should speak with their Supervisor about requesting an accommodation.

Additionally, the Archdiocese of San Francisco will give you work time to be tested for COVID-19. Once you receive your results, you are required to report to them to [name of site supervisor]. All medical information will be kept confidential.

The health and safety of employees, parishioners, and community is of utmost importance to us. The Archdiocese of San Francisco is investigating whether any workplace conditions contributed to this exposure and what can be done going forward to reduce the risk of a COVID-19 exposure. Please see the attached Notice of Disinfection and Safety Plan.

Please contact [name of site supervisor] with any questions you may have and for more information on available leave and benefits.

Family Educational Rights and Privacy Act (FERPA

Very truly yours,

Vicky Salgado
Director, Human Resources

RE: Aviso de la Arquidiócesis de San Francisco de una posible exposición al COVID-19: Código Laboral de California 6409.6

Estimado(a) [nombre del empleado]

El [fecha aplicable], la Arquidiócesis de San Francisco recibió un aviso de que usted estuvo potencialmente expuesto al virus COVID-19, en [nombre y dirección del lugar de trabajo] dentro del período de tiempo infeccioso, actualmente definido por el Departamento de Salud Pública del Estado como 48 horas (2 días) antes de que el individuo desarrollara síntomas de COVID-19. Si el empleado positivo al COVID-19 está asintomático, el período infeccioso comienza 48 horas antes de que ocurra la prueba de COVID-19. Usted estuvo en las instalaciones de la Arquidiócesis de San Francisco en el mismo lugar de trabajo que una persona que: [elija la descripción correspondiente, elimine las otras]

- Tiene un caso confirmado por prueba de laboratorio para el COVID-19,
- Tiene un diagnóstico positivo del COVID-19 de un proveedor de atención médica autorizado,
- Está sujeto(a) a una orden de aislamiento relacionada con COVID-19 proporcionada por un funcionario de salud pública, o
- Haya fallecido debido al COVID-19 dentro del período de tiempo infeccioso.

Hemos determinado que usted es alguien con quien tuvo un "contacto cercano", lo que se define como una persona que estuvo a aproximadamente a 6 pies de distancia del empleado que resultó positivo del COVID-19 por un período acumulativo de al menos 15 minutos. Este contacto tuvo lugar durante un período de 24 horas marcado a partir de dos días antes del inicio de los síntomas de la enfermedad de esa persona (o, para pacientes asintomáticos, ocurrió dos días antes de que fue colectada la muestra de prueba de laboratorio) hasta el momento en que fue aislado el paciente. La determinación de un contacto cercano se realiza independientemente de si las personas llevaban una cubierta facial (mascarilla) u otro equipo de protección personal. Según la información disponible para la Arquidiócesis de San Francisco, su último "contacto cercano" con esta persona fue el _____ [indique la fecha de exposición].

Dada su posible exposición al COVID-19, la Arquidiócesis de San Francisco le solicita que se ponga en cuarentena en su casa durante 14 días contados a partir de [fecha de exposición], antes de

regresar al trabajo. Además, se le recomienda que se comunique con su proveedor de atención médica y el departamento de salud pública local para obtener orientación e información adicional sobre las posibles acciones que debe usted tomar en función de sus circunstancias individuales.

Los beneficios o prestaciones relacionadas con el COVID-19 que ofrece la Arquidiócesis de San Francisco para los que pueden ser elegibles incluyen:

- Licencia o prestación pagada por enfermedad de la Arquidiócesis de San Francisco
- Vacaciones pagadas
- Compensación para trabajadores
 - Licencia por discapacidad médica
 - Discapacidad estatal
 - Horas de Enfermedad Pagadas Suplementarias²⁰²¹ de COVID-19 en California (hasta el 30 de septiembre 2021)

Algunos empleados pueden ser elegibles a ser otorgados una adaptación razonable en relación con estas normas. Los empleados deben hablar con su supervisor sobre cómo pueden solicitar una adaptación.

Además, la Arquidiócesis de San Francisco le dará tiempo durante horas de trabajo para hacerse la prueba de COVID-19. Una vez que reciba sus resultados, debe informarle a [nombre del supervisor del sitio]. Toda la información médica se mantendrá confidencial.

La salud y seguridad de los empleados, de los feligreses y de la comunidad es de suma importancia para nosotros. La Arquidiócesis de San Francisco está investigando si las condiciones del lugar de trabajo contribuyeron a esta exposición al virus que usted tuvo y determinar qué se puede hacer en el futuro para reducir el riesgo de exposición al COVID-19. Consulte el Aviso de Desinfección y Plan de Seguridad adjunto.

Comuníquese con [nombre del supervisor del sitio] si tiene alguna pregunta y para obtener más información sobre los beneficios o prestaciones disponibles.

Muy atentamente,

Vicky Salgado

Directora de Recursos Humanos

Appendix G: Workplace Notice

TO: All Employees at [name of affected location]

FROM: Vicky Salgado, Director of Human Resources

DATE: [date of notice]

RE: Archdiocese of San Francisco Notice of a Potential Exposure To COVID-19:
California Labor Code 6409.6

On [date], the Archdiocese of San Francisco received a notice that employee(s) were potentially exposed to COVID-19, [name and address of location]

You were on the Archdiocese of San Francisco premises listed above at the same time as an individual who has [choose applicable bullet and delete others]

- A laboratory confirmed case of COVID-19,
- A positive COVID-19 diagnosis from a licensed health care provider,
- Is subject to a COVID-19 related isolation order provided by a public health official, or
- Who has died due to COVID-19 within the infectious period of time

Based on the information available to the Archdiocese of San Francisco, you have not been identified as someone with whom the individual had “close contact” with, which is defined as spending 15 minutes or more within 6 feet of an individual with COVID-19 at the time that he or she tested positive for COVID-19.

Under our policies and procedures, you do not have to quarantine because you were not a close contact of the person. However, if you wish, you may take worktime to get a COVID-19 test. If you choose to get a test, you are required to report the results of your COVID-19 test to [name of site supervisor]. All medical information will be kept confidential.

COVID-19 related benefits the Archdiocese of San Francisco offers that you may be eligible for include:

- Archdiocese of San Francisco provided paid sick leave
- Workers’ Compensation
- Leave under the Family Medical Leave Act and/or California Family Rights Act
- State disability

The health and safety of employees, parishioner, and community is of utmost importance to us. Please see the attached Notice of Disinfection and Safety Plan.

Please contact [name of site supervisor] with any questions you may have and for more information on available leave and benefits.

PARA: Todos los empleados de [nombre de la ubicación afectada]

DE: Vicky Salgado, Directora de Recursos Humanos

FECHA: [fecha de notificación]

RE: Aviso de la Arquidiócesis de San Francisco de una posible exposición al COVID-19: Código Laboral de California 6409.6

El [fecha], la Arquidiócesis de San Francisco recibió un aviso de que los empleados de [nombre y dirección de la ubicación] fueron potencialmente expuestos al COVID-19,

Ustedes estuvieron en las instalaciones de la Arquidiócesis de San Francisco mencionadas anteriormente al mismo tiempo que una persona quien [elijan la opción correspondiente y elimine las otras]

- Es un caso confirmado del COVID-19 por prueba de laboratorio,
- Recibió un diagnóstico positivo del COVID-19 dado por un proveedor de atención médica autorizado,
- Está sujeto(a) a una orden de aislamiento relacionada con COVID-19 proporcionada por un funcionario de salud pública, o
- Ha fallecido debido al COVID-19 dentro del período de tiempo infeccioso

Con base en la información disponible para la Arquidiócesis de San Francisco, usted no ha sido identificado como alguien con quien la persona tuvo "contacto cercano". El "contacto cercano" es definido por el pasar un período de tiempo de 15 minutos o más, a una distancia de 6 pies o menos, de una persona con COVID-19 en el momento en que fue determinada esa persona el ser positiva al COVID-19.

Según nuestras políticas y procedimientos, usted no tiene que ponerse en cuarentena porque no tuvo un contacto cercano a esa persona. Sin embargo, si lo desea, puede tomar tiempo durante horas de trabajo para hacerse una prueba de COVID-19. Si elige hacerse una prueba, debe informar los resultados de su prueba del COVID-19 a [nombre del supervisor del sitio]. Toda la información médica se mantendrá confidencial.

Los beneficios o prestaciones relacionadas con el COVID-19 que ofrece la Arquidiócesis de San Francisco para los que puede ser elegible incluyen:

- Tiempo por enfermedad pagado por la Arquidiócesis de San Francisco
- Compensación para trabajadores
- Licencia bajo la Ley de Licencia Médica Familiar y / o la Ley de Derechos Familiares de California
- Discapacidad estatal

La salud y seguridad de los empleados, de los feligreses y de la comunidad son de suma importancia para nosotros. Consulte el Aviso de Desinfección y Plan de Seguridad adjunto. Comuníquese con [nombre del supervisor del sitio] si tiene alguna pregunta y para obtener más información sobre los beneficios disponibles.
